

Week 2: Week of April 6th Library Time
Mini Scavenger Hunt for Middle School Grades

Pick 1 Scavenger Hunt

Scavenger Hunt 1: Coral Reefs

- Coral reefs are among the most amazing sights in the ocean! Thousands of species of fish and plants make their home in the reefs.
- Amaze your friends with the awesome facts you will find on this site:

<https://seaworld.org/animals/all-about/coral-and-coral-reefs/>

- 1) What is the largest barrier reef in the world?
How large is it?
- 2) What is the initial source of energy for coral reefs?
- 3) What are the three types of reefs?

Challenge: How does deforestation on land affect coral reefs underwater?

Deforestation: the action or process of clearing of forests

Scavenger Hunt 2: The Owl Pages

- Owls are unique and fascinating creatures with a distinct lifestyle.
- What makes these mysterious creatures of the night so captivating? Find out at the following Website, then answer the questions below:

<https://www.owlpages.com/owls>

- 1) What is a group of owls called?
- 2) How many eggs does a female owl lay?
- 3) What is the only continent where you can't find owls?

Challenge: Owls are birds of prey. What does that mean?
